

Our newest cellular modem has been specifically designed for the industrial water treatment industry. Dual cellular antennas and multi-carrier SIMs allowing for worldwide connectivity offer more reliability and flexibility than ever. Our new SIM cards allow these modems to connect in **over 200 countries!** Connect up to four controllers to one modem and start receiving alarms, summaries, and data logs from anywhere with cellular access.

CELLULAR MODEM & DATA PLANS

*Our average customer uses less than 200MB/mo for their Walchem controllers.

*The USA Multi-SIM automatically connects to the best available network. In the US the available networks are Verizon, T-Mobile, AT&T, and other regional networks. Internationally, the SIM card works the same with various networks available in each country. Contact Atlantis for questions about country specific network availability.

REMOTE IP ADDRESS

Example: 216.74.124.49:8585¹

CONTROLLER ETHERNET SETTINGS

CONTROLLER IP	10.0.100.101
NETMASK	255.255.254.0
GATEWAY	10.0.100.7
WEBSERVER	HTTP

WiFi CONNECTION

SSID	Atlantis_RUT241_XXXX
PASSWORD	7246952900

Use controller IP to connect over WiFi.

ADDITIONAL CONTROLLERS

CONTROLLER #2 IP	10.0.100.102
CONTROLLER #3 IP	10.0.100.103
CONTROLLER #4 IP	10.0.100.104

¹To access additional controllers, use the remote IP address & change :8585 (#1) to :8686 (#2) / :8787 (#3) / :8888 (#4).
